The jury disregarded the testimony of five alienists and Chief Justice Olson of the Municipal court that

Stelk was insane.

The former judge was caught a year ago in the midst of a plot to obtain through a system of forged deed property valued at approximately \$500,000. He was arrested and indicted before he was able to make any money from his elaborate scheme.

Convicted on First Ballot.

A defense of insanity was suddenly decided on after the state had conclusively proven its case. Five leadists, including Dr. H. Douglas Singer, who for years was the physiused by the state's attorney's office to combat insanity pleas by testified that the former udge was insane when he committed testimony decided on the first ballot that Stelk was guilty and sane.

Dr. Francis J. Gerty, superintendent of the psychopathic hospital; Dr. Wil-liam J. Hickson, head of the Municipal court laboratory; his assistant, Dr. Gil-bert E. Pond, and Dr. Sidney Kuh were the other alienists who test Chief Justice Olson also testified that Stelk was insane for two years prior to leaving the bench.

Lay Testimony Helps State. The state used no expert testimony

in rebutting the insanity defense. In fact, no alienist familiar with court procedure could be obtained by the prosecution because the defense had already employed all of them. Only two lay witnesses, attorneys who had dealings with the former judge, testified that he was sane.

Washington, D. C., March 22.—[Special.]—Harry F. Sinclair, millionaire oil operator indicted with Albert B Pall, former secretary of the interior in the Teapot Dome conspiracy, must go to trial alone April 4, under are order entered today by Justice Jemins Bailey in the District Supremount, severing the charges against the pair and indefinitely postponing Fall's

The first Sinclair-Fall trial collapsed last November in a mistrial, when a jury fixing plot alleged to have been engineered by Sinclair was exposed. A new trial was set for Jan. 16 and later postponed to April 2. Sinclair, william J. Burns, and others involved in the jury tampering charges subsequently were convicted of contempt of court and are now under jail sentences.

The spontaneity of Spring, its life and youthfulness, dominate our Week of Exposition. So for this season, the mode as it concerns the young woman is especially in tune. For her Paris designs a greater elegance, in line as well as in fabric ... as this delightful Springtime Paris scene by Marty shows. There is a sweep, a flow of line, a new inclination of waistline and hemline, one up, the other down ... pictured in Jenny's new scolloped frock, the elaborate wrap from the house of Worth, and the tailored ensemble originated by Lanvin. These and other important youthful trends are exemplified in new importations and adaptations, discriminately chosen for our Misses' Sections on the Sixth Floor.

There's a Smart "In Town" Feeling About This Topcoat

From the crispness of its pointed lapels and its tapering lines to the smooth fabric and the expert tailoring, this Topcoat smacks of that smartness reflected at the Casino or along Lake Shore Drive, at Pierre's or along Park Avenue. We find it most effective in materials with very little or no pattern. Priced at seventy-five dollars.

THE PIERCE-ARROW SPRING SALON

On view today ... and until March 31st ... an advance showing of the season's smartest modes in motor cars. Featuring the New Series Eighty-one in various custom designs of Pierce-Arrow creation.

This is the automobile of which M. Saoutchik, famed Parisian body builder, said:

"It is my opinion that it will have a profound influence on body designs in America. It is the most beautiful car of its kind I have ever seen!"

Besides the new car in its various body styles, there is a special display of the distinguished Pierce-Arrow Series Thirty-six-patricians of the line, and priced up to eight thousand dollars.

Pierce-Arrow prices, however, are by no means confined to the upper register. Such impression is all too frequently a barrier in the minds of Pierce-Arrow admirers. And so mistakenly.

The fact is, that the new Pierce-Arrow sells from the comparatively low minimum of \$2900, at Buffalo. And no comparable car is easier of purchase, or more economical of maintenance.

The Spring Salon is primarily an exhibit of authentic style in motor cars. It offers very conclusive evidence as well that Pierce-Arrow ownership is within easier reach than most people imagine.

CHICAGO TRIBUNE delivered at your cabin door!

THE enterprising spirit of the Chicago Tribune and the development of radio have established a daily newspaper aboard strain ships representing the leading American and foreign lines.

The Chicago Tribune Ocean Times is published on twenty-fin Atlantic steamships. A New York correspondent of the Tribung selects and edits four or five leading news stories of the night and "makes up" an imaginary page 1. In the order of their importance the stories are then radioed to the steamships listed. Chicago Tribung news reports are received in the ship all through the night until presented.

Prepared headlines are radioed as well as news stories. The rad operators receive the news and turn it over to the ships' printers A miniature Chicago Tribune, containing many of the Tribune's famous daily features and cartoons, is printed in New York before sailing. In spaces left blank for the purpose, the ships' printers insert the nightly radio news.

At breakfast every morning The Chicago Tribune Ocean Times greets passengers on the world's most luxurious liners with all the important news of the world!

Herbal Flaxolyn Compound:

Some years ago when I was in personal need of Gastro-Intestinal help I used your Flaxolyn with most excellent results. I am enclosing \$10 for a quantity of Flaxolyn to help my patients, as I am now a Naturopathic physician. I am a retired Baptist minister. I broke down in health completely nearly 15 years ago, but on Nature-cure lines (and with the help of Flaxolyn) I am sure of helping many people through Flaxolyn because it pays proper attention to STOMACH NEEDS—which ordinary laxatives do not." Dr. Middlekauff's experience with Herbal Flaxolyn has been more than duplicated by doctors, sanatoriums and patients all over the world. Dr. Baker of the Foster Health Home, Clarkson, Wash, reports as follows:

"I have been using Flaxolyn quite extensively in my practice, especially in cases of appendictis for the purpose of cleansing and purifying the intestinal tract, and have found it very satisfactory indeed. In some cases I am unable to get along without it."

Dr. G. Starr White, the famous coast health author; Dr. Axel Emil Gibson, noted Los Angeles lecturer and writer; Dr. Victor Hugo Lindlahr of the Lindlahr Sanatorium in Chicago; Dr. Woodruff of Port Angeles, Wash, and hundreds of other drugless physicians have given unstinted praise to Flaxolyn, because it is a natural food remedy. CENTRAL TRUST COMPANY OF ILLINOIS, CHICAGO, TRUSTEE

For further information regarding the Company and this issue of bonds, reference is made to a letter dated March 20, 1928, received from the Company, copies of which may be obtained from the undersigned and from which the following is summarized: BUSINESS, TERRITORY AND PROPERTY: The North Continent Utilities Corporation controls the North Shore Gas Company, Great Falls Gas Company, Elk River Power & Light Company, Great Northern Gas Company, Limited, Great Northern Utilities Company, The Denver Ice and Cold Storage Company and Capital Ice Refrigerating Company. Through these controlled companies it serves a total of approximately 30,000 customers with gas and electricity (the territories thus served having a population in excess of 175,000), and does approximately one-half of the ice business in the cities of Denver, Colorado, and Indianapolis, Indiana. The operating gas properties include generating plants of a total daily capacity of 14,742,000 cubic feet with 484.7 miles of gas mains: the electric systems have an installed generating capacity of approximately 2,400 kilowatts and 93 miles of transmission lines; the ice properties have a daily manufactured ice capacity of 1775 tons.

SECURITY: These Bonds will constitute, in the opinion of counsel, the only funded debt of the Corporation and will be secured by pledge with the Trustee of all indebtedness (other than current indebtedness not in excess of current assets) of the controlled companies above mentioned (except North Shore Gas Company and Capital Ice Refrigerating Company); over 99% of the outstanding Preferred and Common Stocks of Great Northern Utilities Company, Elk River Power & Light Company, Capital Ice Refrigerating Company and Denver Ice and Cold Storage Company; 62.29% of the Capital Stocks of Chicago Suburban Gas and Electric Co. (representing ownership of 62.29% of the Common Stock of the North Shore Gas Co.); 58.75% of the outstanding Common Stock and over 34.95% of the outstanding Preferred Stock of Great Falls Gas Company and 69% of the outstanding Common Stock and over 48% of the outstanding Preferred Stock of Great Northern Gas Company, Ltd.; \$1,000,000 par value of the authorized and outstanding \$1,500,000 par value 7% Cumulative Preferred Stock of the North Shore Coke & Chemical Company.

The securities pledged have been valued at more than two times the amount of these Bonds, which will be followed by

DEUTSCHE BANK, BERLIN, GERMAN TRUSTEE FOR BONDS

The following information regarding the Bank of the Silesian Landowners Association in Breslau, Fund Gold Bonds has been summarized for us by Adolph Malleis and Hans Eichert, Managing Directors of the Bank and Siegfried von Grolman, General Director of the Association.

SILESIAN LANDOWNERS ASSOCIATION, the oldest agricultural credit organization in Germany, was created by Royal Decree in 1770 for the purpose of providing capital for agricultural development in the Province of Silesia. The estates of the Landowners, more than three thousand in number, affiliated with the Association constitute approximately 42% of the total area of the Province. The Association has no share capital and is not operated for profit. Its operations are under the supervision of the Free State of Prussia. As of June 30, 1927, the Association had outstanding the equivalent of approximately \$34,054,000 Land Mortgage Bonds and \$4,756,000 other obligations, all secured by individual first mortgages, and approximately \$7,285,000 Rye Mortgage Bonds.

BANK OF SILESIAN LANDOWNERS ASSOCIATION in Breslau (Schlesische Landschaftliche Bank zu Breslau) was established in 1868 to perform the financial functions of the Association, primarily the distribution and service of its Land Mortgage Bonds. The Association owns all the present capital of the Bank amounting to 1,500,000 Goldmarks.

PURPOSE: The proceeds of these 6% Gold Bonds have been used by the Bank for the purpose of granting to the Association a Twenty-Year 6% Goldmark Loan equivalent in principal amount, at the rate of 4.20 Goldmarks to the dollar, to the principal amount of these Bonds. The Association has in turn agreed to use the proceeds of the Goldmark Loan for the purpose of granting loans to farmers, secured by first mortgages on productive agricultural and forest

SECURITY: The \$5,000,000 First Mortgage Collateral 6% Sinking Fund Gold Bonds constitute the direct and unconditional obligation of the Bank and are secured by the assignment to the Trustees of all the Bank's rights under a Goldmark Loan Agreement with the Association and by pledge with the Trustees of 7% Goldmark Land Mortgage Bonds of the Association of a principal amount equivalent in Goldmarks to the aggregate principal amount of these Bonds. The 7% Goldmark Land Mortgage Bonds are secured by an equivalent principal amount of individual first mortgages on productive aggregates and forcest propositions to the extent of not individual first mortgages on productive agricultural and forest properties to the extent of not exceeding 36% of the conservatively appraised value of such properties, based on appraisal principles approved by the Free State of Prussia.

The Land Mortgage Bonds are by law further secured by a general and unconditional charge upon the assets of the Association and upon the properties (whether mortgaged or not) of all landowners affiliated with the Association, comprising approximately 3,800,000 acres including about 80,000 acres of State domains so affiliated. The aggregate value of the foregoing properties taken on a conservative basis is calculated to be equivalent to over \$365,000,000. The Bank has the right to secure the release of a principal amount of the underlying Land Mortgage Bonds equal to the principal amount of 6% Gold Bonds retired.

CREDIT: The Association has a record of more than a century and a half of continuous public service marked by conservative financial policies. Before the War, the Land Mortgage Bonds of the Association were placed in Germany at coupon rates of 3%, 31/2% and 4% with a corresponding yield. Land Mortgage Bonds of the Association constitute legal investment in Germany for Trustees Funds.

GENERAL: The Province of Silesia (composed of Upper and Lower Silesia), in the Free State of Prussia, has a total area of approximately 14,000 square miles, constituting about 12% of the territory of the State, (excluding the Saar District). The population of the Province is in excess of 4,000,000 as compared to the 38,000,000 inhabitants of the State. Breslau, the capital of the Province with a population of about 500,000, is the seventh largest city in Germany. Apart from its extensive agricultural territory, the Province includes, in the vicinity of Breslau, the third most important industrial district in Germany. Conversion of Goldmarks into U.S. Currency are made at the rate of 4.20 Goldmarks to the Dollar.

The legal proceedings in connection with the issuance of these Bonds have been passed upon by our counsel, Messrs. Rus Bisbee & Stern, New York, except as to all matters of German law which have been passed upon by Dr. Fritz Oppenheimer, Delivery will be made in the form of Definitive Bonds.

GASOLINE ALLEY-TOO SCOTCH

Stock Shows Again Why He Has Fine Band

Member of Violin Section Scores as Soloist.

BY EDWARD MOORE. A number in the course of the Chicago Symphony orchestra's program last night made manifest one of the ninety-five or ninety-six reasons why this orchestra is the superb organization that it is. Franz Polesny, a member of the violin section, played Vieuxtemps' Fourth Concerto as solo number. Perhaps he is an extra good reason, but he is one of them, for he played with uncommonly suave and mellow tone, not to speak of having enough technic to make the perform ance sound as though it were not dif-

There was loud demand for another piece, so Mr. Polesny stepped to the left side of the stage and played Schubert's "Ave Maria" with harp accompaniment. Then Mr. DeLamarter returned to the conductor's stand and took up the programmed course again with that highly attractive 'Dance of Nymphs and Satyrs" from Georg Schumann's "Amor and Psyche," and Svendsen's "Carniyal in Paris." Before this there had been Goldmark's "In Springtime" overture and Glazounow's Fourth symphony.

Neck Lines are Nothing if Not Startlingly New

Corinne Lowe NEW YORK .- | Special Correspondence. 1-The neck line of fashion today often becomes the snow line. One refs, of course, to all these lingerie touches that are doing so much to inflect our spring frocks and suits. There is no end to the manipulation of such touches, but it seems to me the climax is reached when Jenny es inside one of her costumes a stiff white linen collar exactly like those which used to top off the basque of the eighties. There are numerous other neck fin-

ishes which rival this one in spectac-ular effect. For example, there are Portland, Ore., March 22.-(P)-Miss a man's big white handkerchief, frocks. And while speaking of these one must refer also to those touches supplant the lingerie collar.

And then one does wonder, why is it pany here to open the opera season tonight. No date was set for the wed-ding.

After the new home has been finished and the ground has settled, every suburbanite has the task of working over the clay coated lawn in order to get grass started or to grow vegetables or flowers. Clay soil is tough to han dle unless you know what to do to make it into a productive seed bed.

There is a lot of digging and doctoring on any clayey lawn or garden, whether it is old or new. It takes a good stout spade that will root up the earth to a depth of at least twelve inches. It is a waste of time to work the top into a loose mass and leave a heavy clay subsoil untouched.

Lime sand and sales are all most lime to warm and assent mindelly I took the paper. Lime, sand, and ashes are all good materials to be spaded in to loosen up a clay soil.
